

Crawford SSD Villa Door

Frontline – Topline - Flatline

SaudiCrawford

High quality Isolated Side Sliding Villa Door

Saudi Crawford Villa Doors gives your Villa the luxury touch

Saudi Crawford Side Sliding Villa Doors are high quality sectional doors and are made to measure to fit to your requirements. The components are made from European quality securing a long life time and guarantees you a trouble free operation. The sliding concept give you all the freedom in your entrance to install

The doors are always equipped with an operator and remote controls so you can operator the door from distance.

The panels which are used are available in 3 different models: Frontline, Topline and Flatline with orange peel embossing surface. This surface secures that small damages will not give a bad outlook.

Each door is equipped with safety features to make sure that you and your family can use the door

Dimensions

Door height (H)
max. 3000 mm

Door width (W)
Max. 6000 mm
(Single door)

Panel choices

Sandwich panels are 40 mm thick with a poly urethan filling. The panels have standard finger pinch protection to secure that fingers cannot be hurt in the joints between the panels. All panels have an orange peel embossing which makes the panel more robust. Standard color is white (RAL 9010), other colors are an option
